#### This New System Could Not Be Easier. (For both of us! \sigma)

Whether it's your first hangout or you've been here since 2013, when I started, you'll be ready to roll with just a few simple steps.

Our mission is simple: Pave Your Path To Perfection.

#### How It Works:

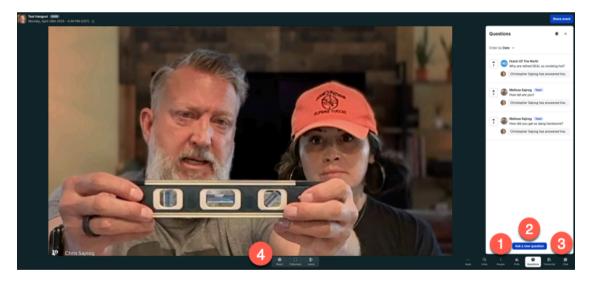

- You'll join a live session directly through your browser no downloads needed.
- You'll be able to chat with teammates, ask questions live, raise your hand, and react with just a click.
- You stay in control participate as much or as little as you want.

### Best Browsers for the Best Experience:

- **Google Chrome** (Recommended)
- **Microsoft Edge** (Excellent)
- V Safari (Works, but fewer features like reactions or screen sharing)
- X Firefox (Not fully supported)

*Tip:* Use a desktop or laptop for the best video and interaction experience. (Mobile devices work too, but with limited features.)

## Tools You'll Have During the Hangout:

- 1. See Who's Online: Your last name will not be shown, video, and audio will be off
- 2. Ask a Question: Post questions for the live Q&A so they don't get lost in the chat.
- 3. Live Chat: Connect with other members, share ideas, and interact live
- 4. Reactions: Instantly respond to key points, laughs, and milestones with emojis.

Note: We'll monitor all channels - you won't be missed.
